Rakesh Mahendran

Technical Skills

- Angular(7,14,16)
- NGRX & RXJX
- Angular JS
- Node.js
- PostgreSQL
- HTML
- CSS
- JavaScript
- TypeScript
- Bootstrap
- SQL
- C#
- ASP.NET Core
- Git & Github

Soft Skills

- Problem- Solving
- Time Optimization
- Decision Maker

Languages

- Tamil
- English

Professional Experience

Ebitaus private limited

03/2025 to 06/2025

- Software Engineer with 3 months of hands-on experience in building modern, responsive web applications using Angular.
- Skilled in creating scalable, maintainable, and user-friendly interfaces with a strong focus on performance and usability.
- Passionate about frontend technologies and continuously learning through real-world projects and self-driven practice.
- Eager to take on challenging roles that offer opportunities to grow as a full-stack or advanced frontend engineer.

Savyasasy

08/2022 to 02/2025

- As a Web Developer with over 3 years of experience in software engineering and web development, I excel in both Front-End technologies and Back-End development.
- I have consistently demonstrated a proven track record of architecting, developing, and implementing interactive websites.
- I also learned to manage website cookies and created a communication website for office colleagues.

Xlicon Business Services Private Limited

01/2022 to 05/2022

- During my six-month internship at Xlicon Services Business Center, I gained hands-on experience as a full-stack developer.
- Throughout this period, I acquired proficiency in DotNet, C#, and some Visual Basic.
- Developed a web application for a fishing company, enabling efficient tracking of hook inventory, waste management, and material procurement and usage.

PROJECTS

TAXUS

Technologies: Angular 14, Java, MongoDB

- GSTIN Filing Software (Tax Payment Platform)

Worked on developing a GSTIN filing web application using Angular. Built 3+ major modules, including:

Sales Module: Handled sales data, invoice creation, e-Invoice conversion, and e-Way bill generation.

Voucher, Delivery Challan (DC), Credit & Debit Note: Designed and developed user-friendly screens for smooth data entry and record-keeping

SCHOOL CHIMES

Technologies: Angular, NodeJs and PostgreSQL

App Summary:

- Built the front-end for School Chimes, showcasing my skill in creating a user-friendly interface.
- This messaging app is crafted for effective communication among teachers, parents, and school management.
- Successfully addressed application inconsistencies, such as crashes, navigation glitches, data loss, and UI-related issues, leading to enhanced system stability and an improved user experience.

PACKET

Technologies: Angular, Bootstrap and Node.js

App Summary:

- Packet specializes in providing digital scratch cards after transactions.
- Integrated APIs and developed a fully mobile-responsive frontend using Bootstrap, ensuring an optimal and consistent user experience across various devices.
- Enhanced the School Chimes project by integrating these technologies.
- The implementation of these technologies led to a 90% increase in user engagement and an 85% improvement in overall platform efficiency.

VGN SMART CALL

Technologies: Angular, NodeJs and PostgreSQL

App Summary:

- Designed and developed an impactful web application for VGN Builders, strategically streamlining client communication, follow-ups, and product promotions and achieved a 40% reduction in response time and 75% increase in client satisfaction.
- The implementation resulted in a 95% increase in client engagement, optimizing business processes and enhancing overall operational efficiency.
- A notable achievement includes optimizing client communication through VGN Smart Call, enabling concurrent calls up to 100,000. development and addressing business needs.

Education

Bachelor of Science (B.Sc) Computer Science

09 / 2018 to 05 / 2021

Sadakathullah Appa College, Tirunelveli

Higher Secondary School (HSC)

07 / 2017 to 05 / 2018

Hidhayathul Islam Higher Secondary School, Kadayanallur
